WORK

BlueBerryX, UX Designer

Aug 2017 - March 2020 · Brooklyn, NY

Working remotely with the Blueberry team, I directed redesigns for their existing upload flow. Work included wireframing, prototyping, collaborating with developers, and executing A-B Tests for multiple design iterations.

Nootbot, UX Researcher

Dec 2016 - Aug 2017 · Brooklyn, NY

Conducted user-research for a chat-bot based web application. Insights drove the development of ranking and suggestions system for in-conversation product suggestions and batching options.

Luca Dellaverson, Studio Assistant

Nov 2015 - Dec 2016 · Brooklyn, NY

Worked alongside artist developing large scale (8'x10') glass enamel sculptures. Work addressed the relationship between artist and society through the framework of continental philosophy.

Sloan–Kettering Institute, Senior Research Associate

Oct 2014 - Nov 2015 · New York, NY

As a part of a small, interdisciplinary team, implemented a translational stem cell protocol for the treatment of Parkinson's Disease. Employed complex behavioral and immunohistochemical methods to determine the efficacy of stem cell grafts in a hemi-Parkinsonian PD model.

EDUCATION

General Assembly, UX Certificate

2018 · New York City, NY, USA

California College of the Arts, Industrial Design

2013 - 2014 · San Francisco, CA, USA

Boston University, BA in Neuroscience

2007 - 2010 · Boston, MA, USA
